

TF809: TERRAFIRMA ROCK SLIDERS WITH TREE BARS

DISCOVERY 2

FITTING INSTRUCTIONS

1. Put the car into gear or park and apply the hand brake.
2. Remove the original plastic sill trims, use a trim clip tool or a pair of long nose pliers.

3. Remove the 10mm nut from the centre of the lower section at the rear of the front wing; the plastic trim should now be free to be removed. Trim off the excess thread from front wing mounting bolt.

WARRANTY & DISCLAIMER - Terrafirma products are warranted free from defects in materials and workmanship for a period of 12 months from the date of retail invoice. Terrafirma does not warrant that the products manufactured or marketed by it comply with the laws of the country where those goods are purchased or used. It is the sole responsibility of the purchaser to ascertain whether products being purchased, or the fitting of those products to any other object, comply with local laws. This warranty covers structural defect and workmanship but does not cover finishes, labour charges for removal or refitting, freight costs, accident damage, misuse or abuse, damage due to incorrect or improper fitment or application, modified product, faulty design or consequential damage of any kind. Damage or defects caused by collision, alteration, improper installation, road hazards, adverse conditions or usage for any other purpose other than normal private usage are not covered by this warranty. Terrafirma shall not be liable for any other claim relating to the use of the product and any indirect special or consequential damage or injury to any person, company or other entity. All claims must be accompanied by the original retail invoice and should be submitted to the supplying Allmakes 4x4/Terrafirma distributor. This warranty covers only the replacement of the product or part concerned. The decision remains solely at the discretion of Allmakes Ltd. The information contained in this catalogue was correct at the time of going to press. Allmakes/Terrafirma and its associated companies reserve the right to alter the range and any product specifications without notice. Always consult your Allmakes/Terrafirma distributor for the latest product information and specifications. The Terrafirma range of products is constantly being evaluated for enhancement and improvement to make sure the level of quality and performance is as expected.

4. Lift the Rockslider up into place with a bottle jack or similar, adjust the position to get correct fitment and to avoid fouling on the front tyre.

5. When you are happy with the positioning of the Rockslider mark and drill the holes, the round holes need to be drilled to 13mm (5 holes inner, nearest side to chassis, 4 holes on the outside) to allow the crush tubes to be inserted.
The oval slotted holes need to be drilled to 8.5mm (4 holes inner, nearest side to chassis, 5 holes on the outside).

6. When fitting the bolts make sure the crush tubes are used to avoid squashing your standard sills, From the outside the tube should be slid over the bolt and then both inserted into the hole you have just drilled.

7. When fitting the crush tubes from the inner, nearest the chassis side the bolt need to come through the hole from the outside and then the tube slid into the hole and over the bolt.

8. Tighten all bolts and repeat the procedure on the other side.

NOTE* The rear most hole in the Rockslider is not used.

NOTE* Depending on the condition of the sills on your car the crush tubes may need cutting down.
